Discover and explore the Bjelovar - Bilogora region on horseback

Wou can find and explore Bjelovar-Bilogora County on horseback. This is the easternmost county of Central Croatia, which spreads over the slopes of the Bilogora, Papuk and Moslavacka mountains. We have pleasure in presenting you with local internationally certified bridle paths, village tourism family farms and equestrian clubs, resting areas, wineries, restaurants, ethno-houses and other features of the cultural and historical heritage dotted along the trail.

All the areas are connected by hilly landscapes. Quiet streams. Fishponds and the accompanying birdsong. Paths that wind through tall woods. More and more interest is added with each new season. An abundant traditional table of good food, prepared by skilful hands, enhanced with excellent wine. Certainly one of the best ways to get to know this region, keeping closest to nature, in a sea of green – is on horseback.

Vinia Agritourism and Campsite – Šapić Family Farm

In the idyllic hills of Bilogora near Bjelovar there is Vinia Agritourism. This small family farm is a true paradise on earth, with an atmosphere of village life, fresh air and the beautiful countryside. It offers everything you need to get away from the everyday hustle and bustle and spend unforgettable moments.

There are 5 comfortable rooms of grade four category (4 suns), an apartment, a campsite, a restaurant for 80 people, and a wine cellar, where you can taste different home-produced types of wine. For the youngest you can find a play area and additionally equipped space for children's birthday parties. Have fun playing volleyball on the sand, badminton, skittles with a swinging ball, five-a-side football, or riding a bike. You can bring your pets and enjoy your time with them. But the biggest pets of the Šapić family are horses. In the stables there are 9 beautiful ones: Arabian horses, Friesian and Croatian warmblood horses that are ready to take you through the countryside and terrains of Bilogora. In line with your experience in horse riding, the Šapić family will help you choose one of their horses and will arrange the best option for your ride. Trekking can be done with or without an escort. But if it is a question of tourist riding, including visits to the tourist destinations of Bilogora, you will be escorted by the head of the tourist horse-riding section. The little ones and those a little less secure, who have not yet learned to ride, can experience their first encounter with horses in the ring under guidance. For lovers of riding, many special one-day and several-day trips are available.

The treks can be tailored to your needs: choice of terrain or duration of trek, length of your stay or number of riders. For those who would like to bring their own horses we can offer accommodation for your horses, too. Your leaders will be certified Vinia Horse Club riders. You will be welcomed by Anemoon, Frula, Gio, Sandini, Trenton, Magic, Rain, Egzotika and Shogun!

ENGEA Croatia - Veliko Trojstvo Equestrian Club

In the Bilogora valley and the surrounding hills of Veliko Trojstvo at the Pirin family farm, there is the first branch of the European Association of Equestrian Tourism established in Croatia – ENGEA Croatia, a member of ENGEA, which operates in 7 countries and has more than 35,000 members. Engea Croatia has eight internationally certified tourist riding leaders and the first equestrian tourist trail certified according to European standards - "BILOGORA EQUESTRIAN TRAIL", 90 kilometres long. The Veliko Trojstvo Equestrian Club has members who are owners of horses and family farms in the municipality of Veliko Trojstvo. It was founded in 1999 with the aim of improving the breeding of sport horses and promoting equestrianism in Bilogora. The Pirin family farm, home to ENGEA Croatia and the Veliko Trojstvo Equestrian Club, is dominated by the stables where riders can take a break and gather after their rides and where also some events are organised. Next to the eco stables there is a fenced arena and walking area for horses. Guests of ENGEA Croatia and the Veliko Trojstvo Equestrian Club can find refreshments there in the form of specialties of the Bilogora region, taste Bilogora wine and enjoy the pleasant and welcoming atmosphere.

Veliko Trojstvo Ethno Park

The ethno park in the centre of Veliko Trojstvo is a unique complex consisting of a structure which used to be a museum and which housed an exhibition of the period when Josip Broz Tito lived and worked there. The house today is an indigenous ethno-collection with many exhibits (about 1,000 different items) that faithfully depict the life, culture and customs of Bilogora's past, including a special part of the ethno-collection of Gordana and Juraj Matunci. Behind the museum there is an ethno-garden and a traditional display of the rural way of life and architecture. An old Bilogora house, a barn, a shed, a bread oven, a storage for corn, and a well, all surrounded by a wicker fence, are preserved to the last detail and kept in the condition they were in a long time ago. These exhibits, illustrating the history of rural architecture, together with the exhibited ethno-collection, add to the special cultural value of the Bilogora region.

Čačija Winery

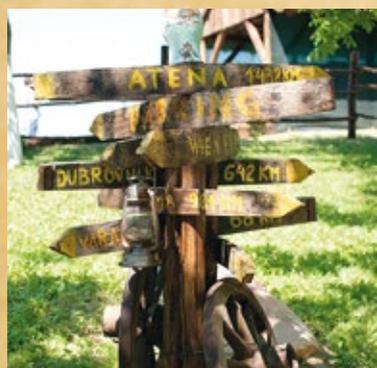

Čačija Winery, founded in 2005, located in Maglenča, in the municipality of Veliko Trojstvo, is the proud producer of the first premium wines with the geographic origin of Bilogora vineyards – Graševina (Riesling) and Cabernet Sauvignon. Within an area of 5 hectares of vineyards, 22,000 vines are cultivated which produce two types of white wine: Graševina (Riesling) and Chardonnay, and three types of red wine: Cabernet Sauvignon, Zweigelt and Portugieser. The peculiarity of the location and the favourable microclimate make this place and the wine from it very special. The Čačija Winery cellar has a capacity of 45,000 litres of high quality premium wines, the majority being Graševina (Riesling). There is also an area where you can taste the wine. The winery includes a village house, a picnic area and a wine shop where you can savour Čačija wine and taste culinary specialities.

Romany Ethno House

The Romany ethno house is an authentic house belonging to the Lovari Roma people, one of eight groups of Roma who live in Croatia nowadays. Not only is it the first such house in Croatia, but it is also the first in Europe. It is a unique tourist and cultural structure that is an attractive and authentic attraction which presents the unknown Romany history, traditions, language and customs as part of the rich Croatian heritage. Also on display are many products for which the Lovari Roma used to be famous (e.g. lavender as a traditional Romany crop). Opportunities are presented to see and taste original Romany food and drink. At the entrance to the whole area, there is a symbolic signpost with directions to major European cities where the Roma are still looking for their place under the sun, and the entrance to the house itself faces the east where the sun rises. In front of the entrance there is an apple tree as a symbol of fertility and prosperity in the family. These, and many other legends, myths and irrefutable facts about the Roma will become familiar to you as you visit this destination where you are always welcome...

Tradition, hussars, and Gidran horses

The long equestrian history of this region belongs to the heritage of the Bjelovar border guards - Husari 1756. As a picturesque historic military unit, they perform at numerous general and commemorative events in the country and abroad and spread the spirit and the history of the cavalry of this region.

Besides the Bjelovar border guards – Husari, closely related to them and also well-known is their horse breed called the Gidran. This is a very interesting and very rare breed of horses that originated at the time of the Austro-Hungarian Monarchy in the Pannonian Basin. Based on this, members of the Gidran breeding associations are working on getting the Gidran horse recognised as an autochthonous Croatian breed whose population is most numerous in Bjelovar-Bilogora County. Selected and bred for military needs, this breed nowadays is arousing great interest in tourism. Having a highly attractive appearance, distinguishing colours, with a calm and courageous character, it is a reliable partner in creating an unforgettable experience in exploring Bjelovar-Bilogora County on horseback.
