

Plan your nature escape and hike with us on a Papuk mountain. Situated next to Daruvar town known by its spa facilities and nature surrounding your trip can be combined with weekend escape.

What to Expect

Join us in discovering the beautiful nature of West Papuk mountain in Slavonia region. A medium-demanding hiking trail waits for you! Our meeting point is at the picnic area and geomorphological site called Vranjevina. After breakfast, we embark on an 11-kilometer long adventure that will lead us through the forest, across the meadows to the hamlet of Jačmenica and the lookout with a wonderful view of the highest peak of Slavonia, Brezovo polje on Psunj mountain. We will continue our ascent along the coniferous forest that will, for a moment, remind you of the seashore. Taking our break along the Toplica River and the quarry. The hiking trail leads us next to the green surroundings and small stream cascades. The end of the adventure is our arrival at Petrov vrh, (highest peak, 614 meters) where we will enjoy a well-deserved meal and relaxed chat at the mountain hut.
