

Join us on a cycling tour via 35 km on Bilogora green slopes, visit Gypsy House and taste a unique lavender "rakija".

What to Expect

Only a 1,5 hour away from Zagreb city, you will find a small hill called Bilogora. With its gentle hills, this place is perfect for hiking and bike rides.

Use a day and escape from crowds!

Jump on a bike and join us in pedalling through the preserved nature and rural environment of the Bilogora green slopes. Enjoy the unobstructed view from the vantage point, the tranquillity of the surrounding villages. This bike tour brings you the opportunity to get acquainted with sights such as the Light Stripes (sculpture park) that follow us for 4 kilometres along the edge of the asphalt road. On our way, we will visit Gypsy house for a short break and (of course) homemade rakija tasting. Have you ever tried lavender rakija? Well, this is just the place! 😊

Our starting and finish point is at the Vrata Bilogore – the rustically family restaurant situated on one of the highest points of Bilogora hill and from where the view extends all the way to Medvednica mountain.
